excerpts from Interregation of KIDO, (Marquis) Keichi, 15 February 1.43

Fago 357

On June 15 and 13, I notice you had some talks with Mr. TANI of the situation. Do you remember what he had to say on those occasions?

A I believe he gave a talk on the progress of the north China incident which I have related a while ago and he informed us that it was settled with ut any serious development.

(19th) Isn't it true that in these days, what the Jovernment was concerned about was the fear that the Army in the field in Forth China and Menchuria would, without sanction from the Government move forward into China?

A There was such a worry and if such a situation would arise, the matter of self-defense would come out.

- Sakal were very belligerent and quite active in fomenting trouble in a rth China and that the Government was very much concerned that they would start some incident so that the armies could sweep in under the guise of self-defense?
- A Yes, the Government was worried such a thing would arise.
- and people that were causing all this trouble for Japon at this particular ceriod were ITAGANI, SANAI, ISSIARA and DOIHARA?
- a I em not clear ab ut DOILARA.
- Tut the other three you agree with me on?
- A I think so.
